Journal of Applied Phycology

Contents of Volume 4, 1992

Vol. 4 No. 1 March 1992

I.A.J. Ratchford & H.J. Fallowfield: Performance of a flat plate, air-lift reactor for the growth of high biomass algal cultures 1

J.L. Gómez-Pinchetti, Z. Ramazanov, A. Fontes & G. Garcia-Reina: Photosynthetic characteristics of *Dunaliella salina* (Chlorophyceae, Dunaliellales) in relation to β-carotene content 11

J.C. Marr, A.E. Jackson & J.L. McLachlan: Occurrence of *Prorocentrum lima*, a DSP toxin-producing species from the Atlantic coast of Canada 17

G.D. Wohlgeschaffen, D.V. Subba Rao & K.H. Mann: Vat incubator with immersion core illumination – a new, inexpensive setup for mass phytoplankton culture 25

A. Cid, J. Abalde & C. Herrero: High yield mixotrophic cultures of the marine microalga *Tetraselmis suecica* (Kylin) Butcher (Prasinophyceae) 31

N.A. Baldwin & B.A. Whitton: Cyanobacteria and eukaryotic algae in sports turf and amenity grasslands: a review 39

C.L. Pederson & L.E. Shubert: Use of membrane filters for soil algal bioassays 49

C.R.K. Reddy, M. Iima & Y. Fujita: Induction of fast-growing and morphologically different strains through intergeneric protoplast fusions of *Ulva* and *Enteromorpha* (Ulvales, Chlorophyta) 57

J.C. Radway, J.C. Weissman, E.W. Wilde & J.R. Benemann: Exposure of *Fischerella [Mastigocladus]* to high and low temperature extremes: strain evaluation for a thermal mitigation process 67

S.P. Hawser, J.M. O'Neil, M.R. Roman & G.A. Codd: Toxicity of blooms of the cyanobacterium *Trichodesmium* to zooplankton 79

Book reviews 87

Patents 91

Notes and comments 94

Vol. 4 No. 2 June 1992

K.J. Flynn, J.L. Garrido, M. Zapata, H. Öpik & C.R. Hipkin: Changes in fatty acids, amino acids and carbon/nitrogen biomass during nitrogen starvation of ammonium- and nitrate-grown *Isochrysis galbana* 95

C. Fenwick & J.G. Day: Cryopreservation of *Tetraselmis suecica* cultured under different nutrients regimes 105

A.S. Cifuentes, M. González, M. Conejeros, V. Dellarossa & O. Parra: Growth and carotenogenesis in eight strains of *Dunaliella salina* Teodoresco from Chile 111

P. Potin, P. Patier, J.-Y. Floc'h, J.-C. Yvin, C. Rochas & B. Kloareg: Chemical characterization of cell-wall polysaccharides from tank-cultivated and wild plants of *Delesseria sanguinea* (Hudson) Lamouroux (Ceramiales, Delesseriaceae): culture patterns and potent anticoagulant activity 119

D.F. Kapraun, J.A. Dutcher & J. Lopez-Bautista: Nuclear genome characterization of the carrageenophyte *Agardhiella subulata* (Rhodophyta) 129
C. Garbisu, D.O. Hall & J.L. Serra: Nitrate and nitrite uptake by free-living and immobilized N-started cells of *Phormidium laminosum* 139
P. Pollesello, R. Toffanin, E. Murano, R. Rizzo, S. Paoletti & B.J. Kvam: ^{1}H- and ^{13}C-NMR spectroscopic studies of lipid extracts of the red alga *Gracilaria longa* 149
N.J. Cromar & H.J. Fallowfield: Separation of components of the biomass from high rate algal ponds using Percoll^{R} density gradient centrifugation 157
M. Grung, F.M.L. D'Souza, M. Borowitzka & S. Liaaen-Jensen: Algal Carotenoids 51. Secondary Carotenoids 2. *Haematococcus pluvialis* aplanospores as a source of (3*S*, 3'*S*)-astaxanthin esters 165
C.M. Steveni, J. Norrington-Davies & S.D. Hankins: Effect of seaweed concentrate on hydroponically grown spring barley 173

Book review 181

Patents 183

List of reviewers 1991 188

Vol. 4 No. 3 September 1992

Regular papers
M. Honya, Y. Kashiwabara & K. Nisizawa: Incorporation of ^{14}C-radioactivity into various lipid classes at different growth-stages of cultured *Laminaria japonica* 189
C. Prosperi, L. Boluda, C. Luna & E. Fernandez-Valiente: Environmental factors affecting *in vitro* nitrogenase activity of cyanobacteria isolated from rice-fields 197
M.R. Brown & K.A. Miller: The ascorbic acid content of eleven species of microalgae used in mariculture 205

Note
S. Suita: Sources of konbu (*Laminaria*) and the konbu market in Japan 217

Papers presented at the Fourth International Phycological Congress

M.R. Tredici & R. Materassi: From open ponds to vertical alveolar panels: the Italian experience in the development of reactors for the mass cultivation of phototrophic microorganisms 221
J.R. Benemann: Microalgae aquaculture feeds 233
J. de la Noüe, G. Laliberté & D. Proulx: Algae and waste water 247
M. Neushul, J. Benson, B.W.W. Harger & A.C. Charters: Macroalgal farming in the sea: water motion and nitrate uptake 255
M.A. Borowitzka: Algal biotechnology products and processes – matching science and economics 267
A. Richmond: Open systems for the mass production of photoautotrophic microalgae outdoors: physiological principles 281

Patents 287

Vol. 4 No. 4 December 1992

I.J. Crouch & J. Van Staden: Effect of seaweed concentrate on the establishment and yield of greenhouse tomato plants 291

G.D. Wohlgeschaffen, K.H. Mann, D.V. Subba Rao & R. Pocklington: Dynamics of the phycotoxin domoic acid: accumulation and excretion in two commercially important bivalves 297

A.Q. Hurtado-Ponce: Cage culture of *Kappaphycus alvarezii* var. *tambalang* (Gigartinales, Rhodophyceae) 311

P. Pollesello, R. Toffanin, E. Murano, S. Paoletti, R. Rizzo & B.J. Kvam: Lipid extracts from different algal species: ^{1}H- and ^{13}C-NMR spectroscopic studies as a new tool to screen differences in the composition of fatty acids, sterols and carotenoids 315

E. Cecere, O.D. Saracino, M. Fanelli & A. Petrocelli: Presence of a drifting algal bed in the Mar Piccolo basin, Taranto (Ionian Sea, Southern Italy) 323

M. Lahaye & J. Vigouroux: Liquefaction of dulse (*Palmaria palmata* (L.) Kuntze) by a commercial enzyme preparation and a purified endo-β-1,4-D-xylanase 329

N.S. Yokoya & E.C. Oliveira: Temperature responses of economically important red algae and their potential for mariculture in Brazilian waters 339

C.J. Sewall: Gelling interactions of phycocolloids extracted from red algae with a galactomannan from locust bean and a glucomannan from konjac tuber 347

J.M. Pillinger, J.A. Cooper, I. Ridge & P.R.F. Barrett: Barley straw as an inhibitor of algal growth III: the role of fungal decomposition 353

J.W.A. McKee, L. Kavalieris, D.J. Brasch, M.T. Brown & L.D. Melton: Alginate content and composition of *Macrocystis pyrifera* from New Zealand 357

L. Shamsudin: Lipid and fatty acid composition of microalgae used in Malaysian aquaculture as live food for the early stage of penaeid larvae 371

C.J. Bird, C.A. Murphy, E.L. Rice & M.A. Ragan: The 18S rRNA gene sequences of four commercially important seaweeds 379

P. Masselin, P. Lassus & M. Bardouil: High performance liquid chromatography analysis of diarrhetic toxins in *Dinophysis* spp. from the French coast 385
